DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 7-8, filed 12-29-06, with respect to the 35 USC 103 rejection of record have been fully considered and are persuasive. The 35 USC 103 rejection of the previous rejection has been withdrawn. The 35 USC 112 rejection of record is also withdrawn.

Allowable Subject Matter

2. Claims 1-14 are allowed. The drawings filed 11-17-03 are acceptable.
3. This application is in condition for allowance except for the presence of claims 15-17 directed to invention non-elected without traverse. Accordingly, claims 15-17 been cancelled as per the examiner's amendment below.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 15-17 are canceled.

Reasons for allowance

5. The following is an examiner's statement of reasons for allowance:

The present invention includes independent claim 1. Claim 1 recites a method of coating an optical fiber.

Nonaka et al is considered the closest prior art. Nonaka et al discloses a method of coating an optical fiber including coating the fiber with a curable coating composition. The coated fiber is exposed to UV radiation for a time shorter than needed for complete curing followed by placing the coated fiber in an oxygen atmosphere.

Nonaka et al does not disclose the claimed combination including:

curing said composition, which contains an unsaturated compound having a double bond and an oxidation catalyst, wherein said curing step includes an in-line first phase of exposing said coated fiber to UV radiation for a time shorter than the time needed for complete curing followed by an off-line second phase of placing said coated fiber in an oxidizing medium in order to complete curing.

For these reasons claim 1 is deemed to be allowable over the prior art of record, and claims 2-14 are allowable by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alain L. Bashore whose telephone number is 571-272-6739. The examiner can normally be reached on about 7:30 am to 5:00 pm (Mon. thru Thurs.).
